Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

(1)

Allowable Subject Matter

Claims 1, 3, 4 and 6-18 have been found to be allowable over the prior art of record.

(2)

The following is an examiner's statement of reasons for allowance:

Methods for the formation of sheet materials having an active substance capable of diffusing through the sheet materials, such as taught by U.S. Patent No. 4,666,767 to Von Kohorn et al. and GB 2,131,740A to Senninger, are known in the art. Von Kohorn et al. disclose the steps of: Providing a first and second base material, which may be identical in composition; applying at least one active substance onto the first base material; and placing and heat bonding the second base material over the first base material having the active substance applied thereto. Although Senninger discloses that the manner of application of pesticide and other features may vary to suit particular requirements, none of the prior art of record specifically teaches or suggests such a method wherein the active substance applied to at least one of the two layers is applied in a flowable form having a viscosity of at least 1000 mPa·s at a pressure of \leq 12 bar with metering and wherein the base materials, after being irreversibly joined to one another, are stored for a predetermined duration under defined conditions to effect migration of the active substance into the base materials layers to form a single-layer homogenous matrix in which the active substance is substantially uniformly distributed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

(3)

Response to Amendments and Arguments

The amendments and arguments filed September 30, 2002 are acknowledged. In response to the amendments to applicant claim 1, claims 1, 3, 4 and 6-18 have been passed to issue as set forth and explained in sections (1) and (2), above. The objection to the specification set forth in the office action mailed 05/21/2002 has been withdrawn in response to the preliminary

amendment filed 03/04/2002 and the amendments filed 09/30/2002. In response to the amendment to claim 6, the rejection of claim 6 under the 2nd paragraph of 35 USC § 112, as set forth in the office action mailed 05/21/2002, has been withdrawn.
